Education

York University – Bachelor of Computer Engineering (Second Year)

Relevant Coursework: Embedded Systems (Unix & C Programming), Computer Organizations (Assembly & Machine-code), JAVA OOP, MATLAB Mechatronics, Discrete Math, Linear Algebra, Applied Calculus, Logic for CS

Professional Experience

Young Engineers | *Instructor* | Toronto, ON | June 2025 – Present

- Deliver STEAM-based lessons on Engineering and coding to young builders using LEGO engineering kits
- Facilitate problem-solving, critical thinking, and collaboration in a structured learning environment

York University | *Active-Bystander Training Facilitator* | Toronto, ON | May 2026 – Present

- Facilitate workshops on active bystander intervention, reaching diverse campus audiences
- Adapt facilitation to participant needs, managing sensitive disclosures and group dynamics with care and composure

Soulpepper Theatre | *Actor* | Toronto, ON | July 2024 – September 2024

- Selected as 1 of 10 actors from 50+ applicants for an intensive 6-week program
- Directed, Produced and Acted in an Independent ensemble musical

Projects

Headless Linux Home Server | Linux Server, Docker, Netplan, Cloudflare, Jellyfin, Bash | May 2025

- Built and configured a headless 24/7 Ubuntu Server on repurposed hardware over Wi-Fi only, using Netplan, systemd, and USB tethering to bootstrap the install.
- Deployed containerized services (Jellyfin, CasaOS) with remote access via Cloudflare Tunnel, secured with SSH key auth, firewall rules, and uptime monitoring.

Automatic Plant Watering System | Java, Arduino, Esp32-c3, Firmata4j, I2C, CSV logging | March 2025

- Developed a Java application controlling an Arduino over Firmata to automate irrigation, using voltage-based soil moisture thresholds calibrated with a multimeter.
- Built real-time monitoring with a live moisture graph, OLED display, and CSV logging, plus a hardware emergency stop and potentiometer-based threshold tuning.

Extra-Curricular

Lassonde Engineering Society | Wellness Director | Toronto, ON | September 2026 - Present

- Organized wellness events and mental health initiatives for engineering students.

Lassonde Week 0 | Frosh Week Captain | Toronto, ON | July 2026 – Present

- Support a safe, energetic experience and work as the central communication hub between O-chairs and leaders

York University | *Class Representative* | Toronto, ON | September 2025 – April 2026

- Appointed representative for MATH 1013/1014 (classes of 300+ students)

York Engineering Competition | Competition Lead | September 2026 – Present

- Currently designing the upcoming YEC communication event, ensuring safe and welcoming experience

IEEE York | Project Lead | Toronto, ON | October 2026 – Present

- Currently helping out with outlining upcoming projects to be completed in IEEE student branch

Certifications

Machine Shop Training
York University - October 2026

Threat Intelligence 101
Cisco Networking Academy - July 2026

Securing Agents with NemoClaw and OpenShell
Nvidia - June 2026

Standard First Aid and CPR
SAJE Vital Signs - November 2024

Concussion Recognition & Response
SAJE Vital Signs - May 2025

Accessibility for Ontarians (AODA)
Government of Ontario - June 2023

Working at Heights
Government of Ontario - October 2023
